

GENERIC COIN

WHITEPAPER

Generic Overview

Generic Coin (\$GENv3) is a **ground-breaking token** on the **Binance Smart Chain** network.

Generic coin has the following **core qualities**:

- 
- **Buy it**
 - **Hold it**
 - **Sell it**
 - **Transfer it**
 - **Farm it**
 - **Play with it**

Generic Team cuts out the costs of expensive brand names, and passes the savings directly to the Generic Customer.

Generic Tokenomics

(page for nerds)

Generic Coin tokenomics are **detailed below:**

- 1,000,000,000 (**one trillion**) **supply**
- **1% buy tax** (1% team and marketing)
- **5% sell tax** (1% team **4% liquidity**)

The **sale** and **distribution structure** is listed below:

- **22%** supply provided to **presale** and **liquidity**
- **15%** supply allocated to **ApeSwap** provision
- **13%** supply to **team** and **development**
- **50%** supply designated for **community events**

Generic Function

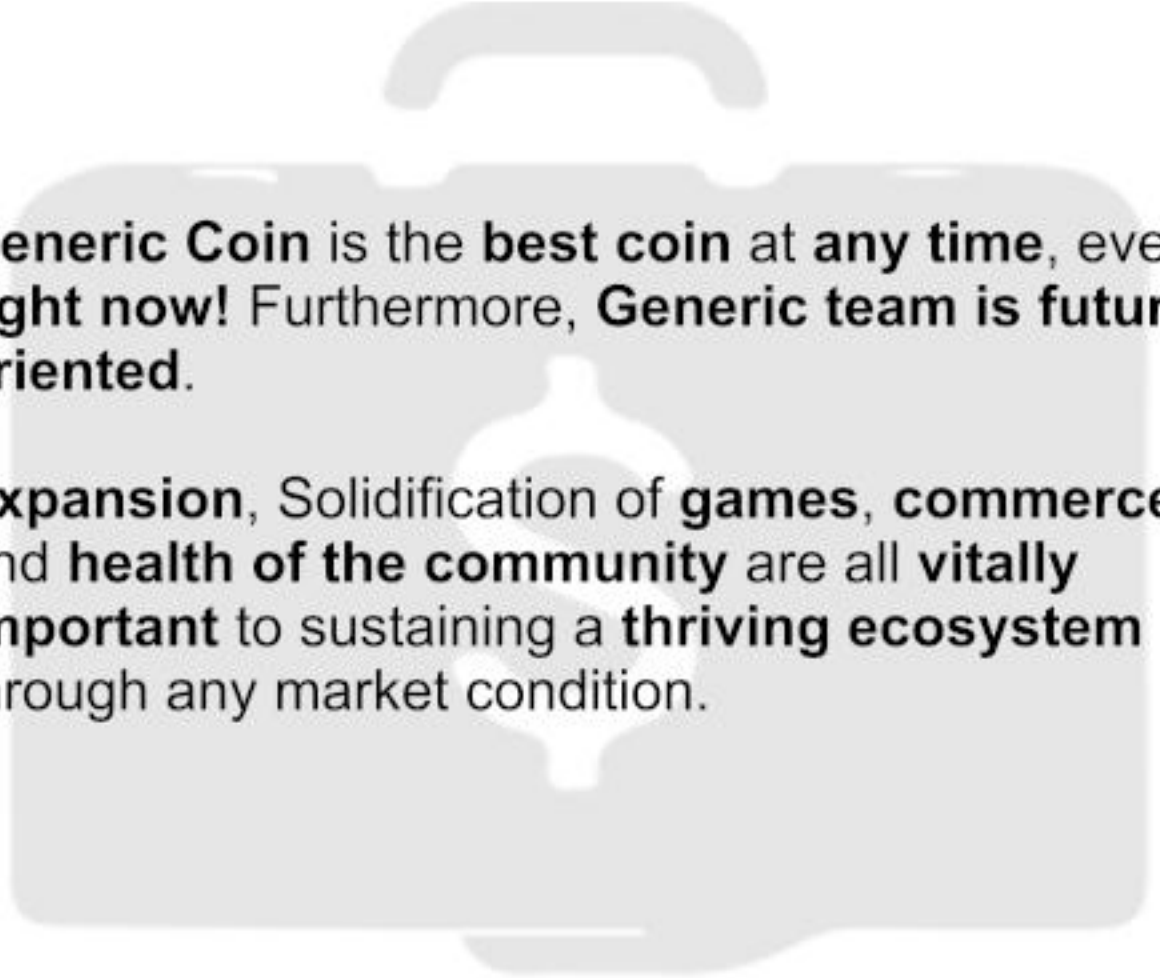

Generic Coin supports an ever-stabilizing and rising price floor with combined **deep liquidity pool**, modest **liquidity tax**, **gamification**, **farming** and **commerce** options, **buyback-and-burns**, and **more!**

Gamification means that **interactive experiences** that **incentivize** the **volume** transfer of **Generic Coin** are in the works. A number of different systems and games are planned.

Farming will be done through **Apeswap**. **100 billion tokens** will be allocated over a length of time to users who **provide liquidity through the platform**.

Buybacks, burns, and **liquidity** tax will support the price of the token through the modest taxes, by accruing tokens that can never be redeemed, and adding **BNB that belongs to every holder**.

Generic Future

Generic Coin is the **best coin** at **any time**, even **right now!** Furthermore, **Generic team** is **future-oriented**.

Expansion, Solidification of **games, commerce,** and **health of the community** are all **vitaly important** to sustaining a **thriving ecosystem** through any market condition.
